

The background of the slide features a series of concentric, irregular blobs in shades of green and teal. The central blob is a light teal color, and it is surrounded by several layers of darker green and olive green, creating a ripple effect. The overall shape is roughly square but with rounded, organic edges.

# 100 random blobs

March the 1st, 2016 — Vasilis van Gemert

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
